## **E-BEAM Services, Inc. Announces completion of a Major Facility Expansion in Lebanon, Ohio**

Lebanon, Ohio, October 31, 2023.

E-BEAM Services Inc., a global leader in contract electron beam processing solutions, is excited to announce a significant expansion of its facility located in Lebanon, Ohio. The expansion adds an impressive 52,000 square feet (about half the area of a Manhattan city block) of cutting-edge technological infrastructure.

The investment and expansion signify E-BEAM Services continued, steady growth. The state-of-the-art space is designed for the housing of another world class electron beam accelerator and specialized conveyor systems to enable efficient large volume operations and provide additional capacity to support the continuous growth of our customers.

"As the demand for sterilization and crosslinking services grows, we are thrilled to expand our Lebanon facility to better serve our clients. "This expansion reinforces our commitment to offering innovative and responsive solutions to our customers," stated Sam Strotman, COO at E-BEAM Services Inc.

E-BEAM Services remains committed to providing exceptional electron beam processing solutions that transform materials and drive technological progress. The facility expansion underscores the company's dedication to meeting the evolving needs of industries that rely on high-performance materials.

"This expansion marks a significant milestone for E-BEAM Services. We look forward to collaborating with our clients to create materials with exceptional properties that will shape the future across industries." said Paul Minbirole, E-BEAM's CEO.

### About E-BEAM Services:

E-BEAM Services, Inc. is the leading supplier of contract electron beam processing services for product sterilization & decontamination services, and polymer product enhancement, with more than 700kW of installed accelerator capacity—enough to process a billion pounds of material annually. With a commitment to innovation and quality, E-BEAM Services empowers industries to enhance the performance, durability, and reliability of their products. E-BEAM is a privately owned corporation with over 50 employees in Lebanon, OH, Cranbury, NJ and Lafayette, IN. For more information about this expansion or general information about E-BEAM Services, call 1-877-413-2326 or visit the company's website: <http://www.ebeamservices.com>.
